

## Insurance and Corporate Risk Conference

### Insurance and the challenges for the construction industry in 2019

McCullough Robertson's Insurance and Corporate Risk Group and Allegiant IRS invite you to attend the **'Insurance and the challenges for the construction industry'** conference on Thursday, 9 May 2019.

This half-day conference is a must-attend for those in the construction and resources sectors who are planning or are currently involved in the delivery of construction and infrastructure projects.

Our experts will take a close look at the current state of the construction insurance market, alignment of contract risk allocation and insurance programs and recent developments concerning the liabilities of those in construction projects.

With a panel discussion chaired by Insurance and Corporate Risk Partner, [Brad Russell](#), our range of industry expert panellists will take an in depth look at how defects are dealt with at both the contractual level and insurance. This interactive session will provide real live working examples of how typical defect construction issues are dealt with at all levels: legal, commercial and insurance.

#### Who should attend:

- Directors and senior management in the resources and construction sectors in Queensland.

For further details on what will be covered throughout the day, [please click here](#) to download the conference agenda.

We hope that you can attend and look forward to welcoming you to this conference.
