2021 Labor and Employment Landscape: What Happened, Where are We, and Where We're Going

Sam Jackson, Matt Morrison, and DeAndrea Washington

- 2021 has been a challenging year for employers, with the continuing need to address pandemic-related issues in the workplace and the changing landscape of federal and state law and regulation. Employers should continue to closely monitor legal developments and remain flexible, as 2022 may well be another year with significant labor and employment law developments on the horizon.
